**RENTAL
EQUIPMENT
PROTECTION**

First, a Rental Equipment Protection plan is not an insurance policy. Our Rental Equipment Protection plan is for you and your company, to cover the repair or replacement costs resulting from equipment damages or theft, that can occur during an equipment rental. A Rental Equipment Protection plan is recommended (and may be required), in order to provide you with protection while you are renting equipment.

The Rental Equipment Protection plan may cover a loss that is at or below your business insurance policy deductible, or it may eliminate the need to file a claim with your insurance carrier that you may not wish to report.

Rental Equipment Protection or REP, if purchased, provides you with financial protection and peace of mind. In the event of a covered loss, the program provider steps in to cover the cost of repairing or replacing the damaged equipment.

Common covered losses include:

- » Theft
- » Damage (Accidental)
- » Flood
- » Collision
- » Wind
- » Vandalism
- » Falling Object
- » Hail
- » Tornado
- » Fire

Examples of Common coverage exclusions:

- » War
- » Illegal Activity
- » Breakdown
- » Criminal Acts by you or your employees
- » Fraud
- » Loss of Use
- » Temperature
- » Humidity

A deductible does apply to Rental Equipment Protection.

Theft protection is included with the Rental Equipment Protection plan. For equipment that may be stolen, you must notify the location you rented the equipment from, within 48 (forty-eight) hours. You must also notify the local police or authorities.

If you do not have the Rental Equipment Protection plan, you are responsible for the cost of replacing the equipment. You may have insurance coverage, but you are responsible for your policies deductible and the claim becomes a part of your policy history.
